

Regic

Powered by Achilles

Join the supplier management community.

Achilles Regic is the steel, cement and mining industries prequalification system used by the steel, cement and mining sectors in South Europe and Latin America to manage risk within the supply chain and comply with legal requirements.

Our Achilles Regic community helps suppliers and buyers reduce risk, streamline procurement and provide unrivalled business opportunities:

- Win new business. Promote your products or services and access tender selection opportunities to over 16 buying organisations.
- Save time and cost. Reduce the duplication of pre-qualification data for potential customers.
- Improve credibility. Have your data checked and validated to industry standards.
- Reduce risk. Enhance the quality of information you provide through a standardised high risk audit for key players in the mining industry.

Key Facts

Number of
buying companies

16

Number
of suppliers

5000+

Become part of the community in 4 simple steps

-

Audits

Achilles audits and assessments are aligned with our pre-qualification questionnaires to enhance validation in key supply chain risk areas.

Achilles audits and assessments review your management systems in several areas, including:

- Quality
- Environment
- Health
- Sustainability & CSR
- Safety
- Carbon Management

Validation

We validate your company information with a thorough quality checking process that suits all businesses.

One of the main benefits of using Achilles Regic is the quality of service our dedicated Supplier Account Management team provides you, whenever you need it.

Controlar

With the right information you can reduce the risk that comes with subcontracting.

Controlar is a fully-managed service giving you tools to manage the people, equipment and practices attached to your contracts allowing you to:

- See more
- Keep key metrics in view
- Compile evidence
