

Providing complete assurance in your oil and gas supply chain

Achilles Assured and IOGP 423 compliant, our audit is based on newly revised regulations within the oil and gas industry.

Acknowledged internationally and aligned with IOGP 423 and NORSOK S-WA-006:2018N, our 1-day on-site audit will provide complete assurance and compliance within your supply chain.

Because insight beats hindsight.

For Buyers:

- Identification of verified suppliers demonstrating a high degree of Operating Management System (OMS) awareness.
- Identifies system improvements for your suppliers.
- Reduces risk during the decision-making process and aids contract management.

For Suppliers:

- No duplication of effort and cost, eliminating the need to complete multiple verification assessments for buyers.
- The chance to demonstrate compliance to the regulations used in the oil and gas industry.
- Identification of improvement opportunities and advice from our experienced auditors.
- A full audit report on Achilles JQS, visible to their choice of buyers within the community.
- The audit report is valid globally and could open up export opportunities.
