

Join the supplier management community.

The community of Siclar unites suppliers and buyers of the oil and gas sector.

Through it, suppliers can promote their capabilities and demonstrate that they comply with legal requirements, increasing their credibility before a giant market of purchasing companies. In addition, they save time and money in the process.

Designed to meet industry standards and current legislation, Siclar brings peace and security to the oil and

Siclar helps suppliers and buyers reduce risk, streamlining the purchasing process and broadening horizons for both parties:

- Win new business. Promote your products or services and access tender selection opportunities to over 13 buying organisations.
- Save time and cost. Reduce the duplication of pre-qualification data for potential customers.
- Improve credibility. Have your data checked and validated to industry standards.
- Reduce risk. Enhance the quality of information you provide through a standardised high risk audit for key players in the mining industry.

Key Facts

Number of
buying companies

9

Number of
suppliers

3800
