

Oil and Gas Europe

Powered by Achilles JQS and FPAL, Oil and Gas Europe combines integrated technology, a new user interface and advanced analytics and an internationally recognised audit standard to provide buyers with a regional, searchable network of qualified suppliers within the European oil and gas supply chain.

And with more than 25 years' experience in this field, when it comes to ensuring everyone gets home from work safely, we're the name to trust.

2 Communities
1 Network

Achilles Oil and Gas Europe's extended network is:

- Driven and informed by almost 30 years of experience in collecting and validating suppliers' data globally
- Aligned to Oil and Gas industry standards such as NORSOK and IOGP
- Verifies other critical financial and business data as well as essential company information, collected through existing Achilles JQS and FPAL communities

Achilles also guarantees:

- No hidden fees – safety is a right, not an expense
- Access to advanced analytics across a range of key qualification measures, including health & safety, financials and management systems
- Validation of all supplier data before it is shared with you

This is the right solution for you when:

- You need to source and pre-qualify suppliers within the European oil and gas industry
- You need to benchmark categories or specific suppliers against the supply chain norm
- You want to understand where potential pain-points and disruptions within your supply chain might be, informing strategic supplier initiatives
- You want a common, industry-specific qualification standard, with the option of inviting selected suppliers to undergo an audit

We offer your suppliers:

- Competitive pricing – a new pricing structure will be introduced to lower costs for SMEs
- Access to a globally recognised HSE audit standard - IOGP 423
- Visibility to over 140 buyers within the UK, Nordics and Europe
